

Transferrable Ski Passes

- Available only to Patron Ski Pass holders
- There are two passes available: #258 and #259
- Transferrable pass reservations open on November 1st of each year, and are available on a first-come, first-served basis. Reservation requests are not guaranteed to be accommodated.
- Reservation requests are only processed during Whitefish Community Foundation office hours – **Monday through Friday, 9am to 5pm.** Requests made on weekends or before or after office hours will be processed the next business day.
- Reservation requests must be confirmed by a WCF staff member. Do not plan on a reserved date unless you have received written confirmation.
- Passes are stored in special lockers in the PSPP locker room. Prior to your reservation, you will be sent instructions on how to access the pass. Passes may only be picked up on the day of your reservation and must be returned to the locker on the same day.
- **PSPP members can reserve one pass at a time for up to two consecutive days, allowing for up to 6 days of total reservations in a 2-week timeframe. There must be 2 days between pass reservations.**
    - For example: Say a family member was visiting from out of town for 2 weeks during ski season. You, a PSPP member, can reserve the transferrable pass for them from Sunday-Monday, then again from Thursday-Friday, and once more next week, beginning no sooner than Monday.
    - With only 2 transferrable passes between 35 members, this policy will help availability remain equitable for everyone. The passes are not intended to serve as de-facto short-term season passes for visitors, but rather as an opportunity to enjoy a brief ski holiday thanks to your PSPP membership!
- There may be flexibility to accommodate additional requests. Please reach out to WCF (contact@whitefishcommunityfoundation.org) to inquire about availability.
- If you are no longer able to use an existing reservation, please let Whitefish Community Foundation know as soon as possible. The dates will be reopened.
